Crear oportunidades para la conexión humana entre padres/cuidadores, superintendente y personal del distrito.

Proporcionar información en todo el distrito para padres/cuidadores para mejorar el acceso y la conexión a las escuelas y los recursos del distrito.

Participar en una comunicación bidireccional con los padres/cuidadores para informar los esfuerzos de mejora continua.

La conexión de los padres del superintendente: suposiciones

Los padres/cuidadores son los primeros maestros de sus hijos.

Cada padre/cuidador quiere que su hijo tenga una experiencia escolar caracterizada por altas expectativas y cuidado.

La vida de los estudiantes mejora cuando los padres/cuidadores participan.

Una conexión entre el hogar y la escuela fomentada por los maestros y el personal de la escuela contribuye positivamente al éxito de los estudiantes.

¿Cómo se desarrolló la Visión 2035?

Esta visión se desarrolló durante el año escolar 2022-23 en asociación con nuestra comunidad de estudiantes, personal, familiares y socios comunitarios, quienes brindaron aportes y comentarios.

Visión

Una visión es la idea rectora de una organización.

Los graduados del Distrito Escolar Unificado de Long Beach están preparados para el futuro. Son dignos de confianza, éticos y resilientes, y pueden aprender, colaborar y adaptarse a circunstancias cambiantes. Actúan con confianza al servicio de la justicia.

LBUSD VISION 2035
Education
Reimagined
in LBUSD

- **Visión 2035 comprende cuatro áreas principales:**
- **El Retrato de Graduados** visualiza los resultados para los estudiantes: las aspiraciones de la comunidad sobre lo que los graduados sabrán, serán y podrán hacer para prosperar en sus vidas y carreras.
- **El Retrato de Adulto** describe lo que todos los adultos que trabajan en el distrito escolar necesitan saber, ser y poder hacer para apoyar el viaje de cada estudiante hacia la realización del Retrato de Graduado.
- **El Retrato del Sistema** se enfoca en crear las condiciones que permitirán a los estudiantes y adultos del LBUSD prosperar y crecer, guiados por los Valores Fundamentales.
- **Los Valores Fundamentales** expresan los principios que guían las acciones del distrito escolar para hacer realidad la visión.

Core Values

CENTERING STUDENT NEEDS AND VOICE

We believe that every student has the ability to thrive and that success requires that we attend to the needs of the whole child. We believe that incorporating student voice and building student agency, so that students can intentionally influence their own circumstances, are essential to our success in understanding and meeting each student's needs.

AUTHENTIC COMMUNITY ENGAGEMENT AND COLLABORATION

We believe that by working together we can address challenges and take actions needed to have a positive impact on student outcomes. We value the diverse perspectives, culture and languages of our collective community and acknowledge the importance of partnership and transparent communication to achieve our vision.

CULTURE OF INNOVATION AND CREATIVITY

We believe that effective problem solving and staying relevant for the future require a culture of creativity and innovation. We cultivate new ideas and divergent thinking to develop effective strategies that catalyze change.

DIVERSITY AND INCLUSION

We believe in honoring and celebrating differences, recognizing the intersectionality of identities related to culture, race, language, gender, sexuality, ability and age, and affirming them in the classroom and workplace.

ENVIRONMENT THAT FOSTERS CONNECTION, RESPECT AND SAFETY

We believe in creating safe and respectful environments—both physical and virtual—that build caring and compassionate relationships to foster human connection, help us reach our shared aspirations and drive student success.

EQUITY AND SOCIAL JUSTICE

We believe that an equitable and socially-just world requires that we actively understand, and unlearn our biases, value and empathize with the lived experiences of others, take action to disrupt systems of oppression and develop future leaders who can do the same.

EXCELLENCE AND ACCOUNTABILITY THROUGH CONTINUOUS IMPROVEMENT

We believe in high standards for all students and staff, and that achieving excellence is the result of an education system relentlessly committed to fostering a growth mindset, continuous learning and courageous adaptation based on student outcomes.

FOSTERING JOY AND COMMITMENT

We believe in leading, learning and behaving in ways that foster joy, passion and commitment in order to build long-term organizational dedication to excellence and long-term organizational resilience.

INTEGRITY AND RESPONSIBLE LEADERSHIP

We believe in managing our financial and human resources effectively and in alignment with our student-centered goals. We value transparency in order to demonstrate integrity and build trust.

Core Values

Core Values are the enduring beliefs that guide an organization's actions over time. The following statements were developed through the vision work, and combine the district's prior Core Values with key ideas aligned to the vision. While Core Values are foundational, when creating any kind of system change, organizations need to articulate the mindsets and ways of working that align with the desired future. Connecting the Core Values to the vision makes the district's ethics explicit, and ensures this alignment.

Plan de Aceleración y Apoyo al Aprendizaje: Pilar IV

Plan de Aceleración y Apoyo al Aprendizaje: Pilar IV

Pillar IV: Infrastructure and Capital for the Future

The superintendent's 2020-2021 goals included analyses (e.g. data analysis, audits, benchmarking activities and review of industry standards) of district infrastructure in multiple areas deemed critical to classroom, schools and central office functions. In addition to these analyses, the development of the district's excellence and equity initiatives revealed a need to strategically invest in the aspirational infrastructure to ensure high quality teaching and learning in every LBUSD classroom.

Context: The investments in district infrastructure and capital aim to ensure that the goals associated with Pillars I, II and III of the Learning Acceleration and Support Plan and the district's strategic plan can be achieved.

Theory of Action: If the district invests in high quality 21st Century infrastructure and a diverse workforce, then schools will have the tools and resources to ensure that students experience academic growth, improved capacities, and engagement in an adaptable, effective and safe learning environment.

Excellence Goal: To improve the district's current infrastructure and to strategically invest in aspirational infrastructure to ensure high quality teaching and learning in every LBUSD classroom.

Equity Goal: Students from all demographic backgrounds will experience safe and nurturing school environments that foster acquisition of 21st Century skills through a culturally relevant approach.
